

Most Precious Body and Blood of Jesus,
B. June 3, 2018

“This is the body and blood of the New Covenant.”

With these words the Jewish Techee named Jesus founded a social network. This social network gathered followers from around the world -people of every race, language and way of life- beginning in 33AD and continuing into tomorrow, next year, next century and eternity.

This social network founded by Tech Master Jesus makes citizens out of immigrants, lovers out of widows, families out of orphans, friends out of enemies, and to the lost he says, “follow me.”

Tech Master Jesus has billions of followers over two thousand years from life through death, to the heavenly Cloud of the -eternal- not virtual reality.

Followers gay and not so gay. Female and sometimes male. Followers married, mix-married, not married and was married.

Baptism registers you. Confirmation confirms you. Flesh and blood keeps you connected. Reconciliation cleans out and cleans up the spam, spyware, junk, trash, viruses, blocked persons, porn and uninvited information.

Prayer is instant messaging and the Holy Spirit tweets.

Un-sainted Saints Pierre Toussaint, Elizabeth Lange, Henriette Delille, Julie Greeley, Augustus Tolton and Thea Bowman are Catholic friends of Tech Master Jesus who follow him. Though they had an infected connection during their lives, and there were many attempts to disconnect and block them; malicious code was set against them and even after being hacked by Beelzebub who accused them night and day, still they ate the body and drank the blood and now twitter, chat and blog with seven bar Connectivity in the great Heavenly iCloud, Face-timing it with God the Supreme Techee, God the Word texted, God the never interrupted Signal Sent.

Blessed, broken, poured, drank and eaten.
